

Need a few additional or replacement vehicles for your agency's Fleet cars?

Look inside to learn more about the "New" preferred solution for supplementing your vehicle needs.

Have we got a vehicle for you!

The Rental Supplemental Vehicle Program (RSVP) SIN 411-2
located on the Transportation, Delivery and Relocation
Solutions (TDRS), Schedule Number 48 offers short-term
vehicle rental services to supplement federal fleets and/or
official business vehicular surges for other than temporary
duty travel purposes. This easy to use program has been
designed specifically with you in mind! GSA provides
quality suppliers with most favored customer pricing. It
combines the ease and convenience of ordering off of a
multiple award schedule with industry and program expertise
so that temporarily replacing or augmenting your agency's
fleet vehicles becomes a breeze.

"The NHTSA/DOT Pacific Northwest Region has used RSVP infrequently over the past 3 months — but that in itself is testimony to the success of the program. Even when we had a Fleet car, we often needed two, or a different style of vehicle. Now we don't have an idle vehicle and RSVP has saved us over \$1,300.00 in just 3 months. It's a winner for us and there's no way we'd go back to the old system."

*Mr. John Mofat
Regional Administrator, Pacific Northwest Region
National Highway Traffic Safety Administration | DOT*

RSVP — The answer to your needs!

The RSVP offers your agency the ability to supplement your fleet and/or vehicular needs for official business purposes unrelated to travel. Benefits include:

- Contract is in place...Agencies only need to place a Blanket Purchase Agreement or Task Order against the contract
- Choice and flexibility with multiple contractors
- Convenient pickup and return locations
- Timely driver and roadside assistance

Typical rental requirements include temporary replacements of a fleet vehicle damaged as a result of an accident or incident; temporary replacement of a fleet vehicle undergoing maintenance; supplemental transportation support for fleets; supplemental transportation support of special events (e.g., G8; training); transportation support for natural disasters, national emergencies, and/or continuity of operations tests and drills; etc. Services include:

- Reservation services
- Online booking
- Pick up and return services
- Rentals up to 60 days
- Some vehicle delivery services
- Driver, roadside, and navigation assistance
- Special vehicle needs (e.g., hand controls, wheelchair lifts)
- Centrally billed accounts and billing services
- Reporting packages

Multiple Award Schedules — The easy way to purchase!

The Multiple Award Schedule (MAS) is one of the most powerful procurement tools available to you. Essentially, a MAS is a listing of awarded qualified contractors that can be used by all federal entities to achieve their missions. GSA awards contracts to responsible companies that offer commercial items falling within the general descriptions of the Schedules. Prices are determined fair and reasonable by comparing discounts that a company offers the government with the prices or discounts that the company offers its best commercial customers. This negotiation objective is commonly known as "most favored customer" pricing. Interested ordering agencies simply follow the streamlined ordering procedures contained in the Federal Acquisition Regulation Subpart 8.4.

The MAS program mirrors commercial buying practices more than any other procurement process in the federal government. MAS provides customers access to professional services at volume discount pricing on a direct delivery basis. This means you'll experience shorter procurement lead times, lower administrative costs, and reduced internal staff hours devoted to obtaining these services.

Transportation, Delivery and An array of services offered

By utilizing MAS, you can avoid the stress and work normally associated with purchasing, yet maintain full control over your purchases.

Contractors may offer you a price reduction at any time. The reduction can be based on individual circumstance such as ordering a large volume of services or volume discounts and length of rentals. Agencies may negotiate price reductions, and Schedule contractors are free to offer spot discount pricing.

Additionally, FAR 8.405 requires ordering activities to seek price reductions when the order value is expected to exceed the established Maximum Order (MO) threshold. GSA establishes the MO threshold based upon the price point at which firms typically offer additional discounts commercially within their industry.

For more information about the GSA MAS program and awarded contractors, you can access the Schedules e-Library at www.gsaelibrary.gsa.gov or visit GSA's online shopping site **GSA Advantage!**[®].

Using the TDRS Schedule not only means effortlessly finding a contractor that can address your transportation and relocation needs, it also assures you that you will receive the most for your budget dollar and greater flexibility in meeting your deadlines.

Flexibility

- Contractors on Schedule have diverse areas of specialization and expertise
- Off-the-shelf and tailored solutions to meet a variety of needs
- No limitation to the size or dollar value of orders
- Varying contract end dates to ensure coverage

Task Order Delivery and Relocation Solutions (TDRS) —

All through one easy-to-use schedule, Schedule 48

Cost and Time Savings

- Drastically reduces procurement lead times and administrative costs
- Freed up internal resources to concentrate on your agency's mission
- Fair and reasonable pricing
- Ability to negotiate additional discounts during Task Order placements
- Easy ordering procedures
- Aggregated purchasing power obtains goods and services at the best value and makes these savings available to you

For contract specific and technical information, visit the TDRS Schedule Web site at www.gsa.gov/tdrs or contact us via email at ontheego@gsa.gov. For general information and price lists, contact the National Customer Service Center at (800) 488-3111 or email ncscustomer.service@gsa.gov.

Peace of Mind

- Compliance with all applicable regulations and competition requirements, including the Competition in Contracting Act (CICA) and the Federal Acquisition Regulation (FAR), whenever easy-to-use ordering procedures are followed
- All contractors are determined to be responsible and technically qualified
- Task Orders to small-business concerns count towards your socioeconomic goals

Control

- Provides a direct relationship between the ordering agency and the service provider
- Offers timely, expert attention to your agency's transportation, delivery and relocation needs
- Allows requirements to be tailored within the scope of the contract
